#### Introduction

This user's guide explores the features of the application by example. Screenshots were taken from a Samsung Infuse running Android 2.2.1 (API 8).

#### Installation

The simplest device installation method is to transfer the included CMSC495 PROJECT FINAL-release.apk file to the SD card of the device or using a cloud storage application such as DropBox to transfer the file. Ensure that the "Unknown sources" box is checked in the Applications Settings on the device as shown below:

When the file is opened on the device, installation will begin automatically.

### 3. Opening the Application

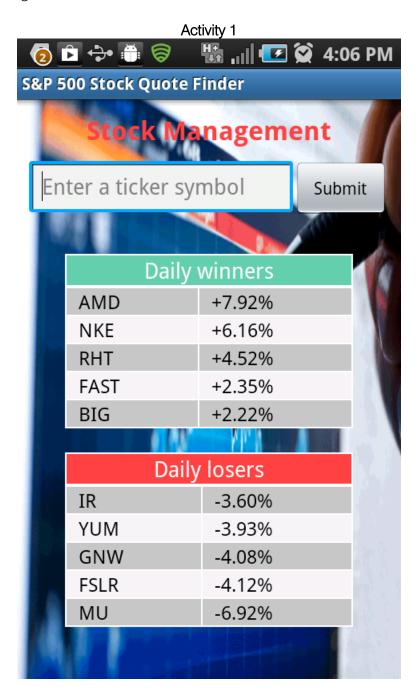

Select the icon as shown below:

#### 4. The Main Screen

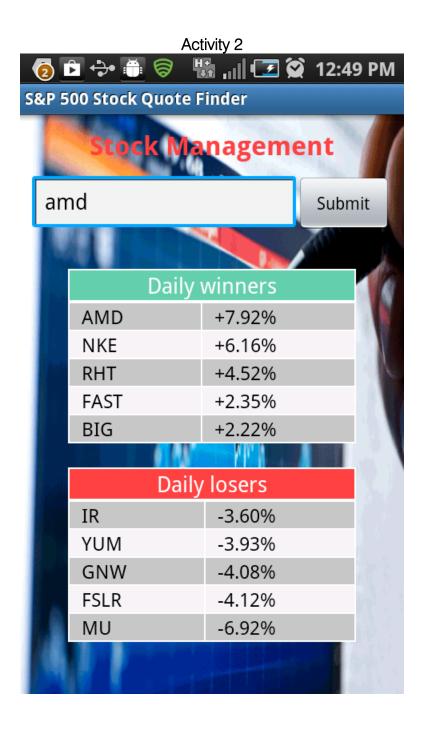

After the database updates, the following screen appears showing the daily winners and losers by percent gain and loss:

### 5. Entering a Ticker Symbol

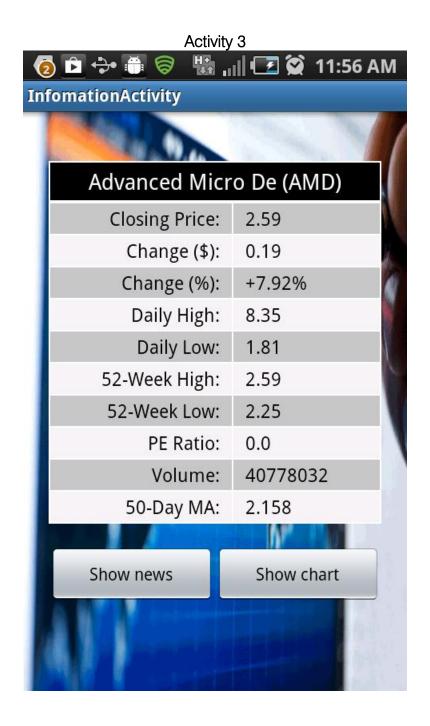

Here, the top daily winner is used as an example.

### 6. Viewing the Stock Information

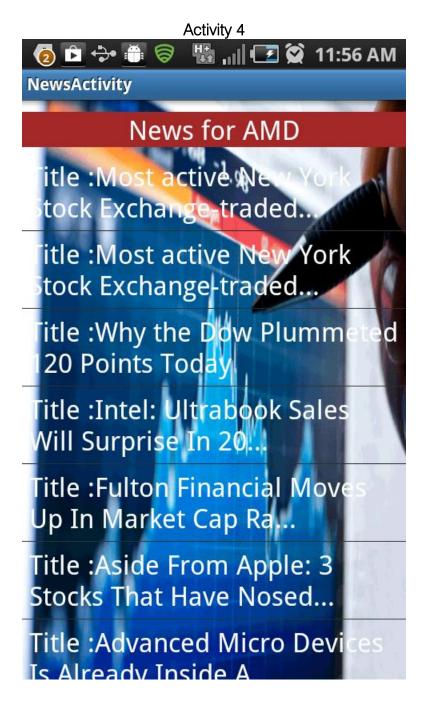

After clicking the "Submit" button, the following screen appears:

### 7. Selecting a News Articles

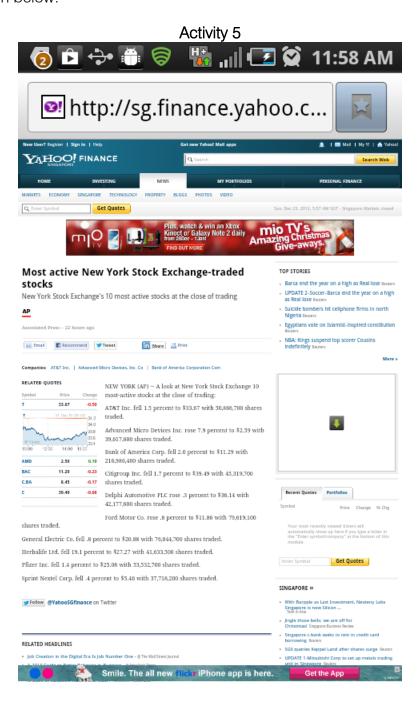

After clicking the "Show news" button, the following list of articles with references to AMD appears:

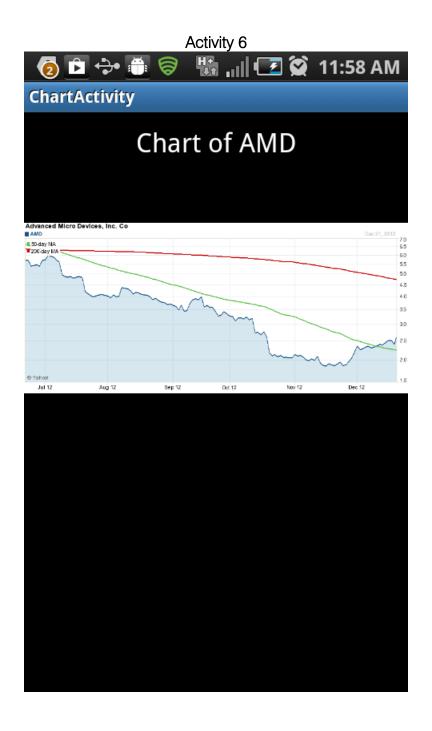

### 7.1 Viewing a News Article

Selecting the first headline from the previous screen opens the website containing the article as shown below:
